PLAYER INFORMATION

Player profiles, measurable athletic attributes, position taxonomy and coach-rated skill definitions | Technical Specification v1.2

1. Player Profile

Field	Definition	Example
First Name	Player first name	*James*
Last Name	Player last name	*Mitchell*
Date of Birth	ISO date; age derived automatically	*1999-04-15*
Age	Calculated from date of birth	*27*
Nationality	Nationality recorded for the player	*American*
Height	Standing height without footwear	*188 cm*
Weight	Current body mass	*108 kg*
Jersey Number	Player jersey number	*55*
Primary Position	Primary playing position	*DE*
Secondary Position	Additional playing position	*OLB*
Position Archetype	Team-defined positional playing style	*Speed Rusher*
Dominant Hand	Preferred hand	*Right*
Dominant Foot	Preferred foot	*Left*
Playing Experience	Years of organized American football	*8 years*
Roster Role	Roster designation	*Starter*
Availability Status	Current participation availability	*Active*

Example values are illustrative and shown in muted italic type. Player descriptions are maintained elsewhere in the application and are outside the scope of this specification.

2. Physical and Athletic Measurements

2.1 Anthropometrics

Metric	Definition	Example
Height	Standing height without footwear	*188 cm*
Weight	Body mass at time of testing	*108 kg*
Wingspan	Fingertip-to-fingertip distance	*195 cm*
Arm Length	Standardized arm-length measurement	*84 cm*
Hand Length	Wrist crease to middle fingertip	*20 cm*
Hand Span	Thumb-to-little-finger spread	*24 cm*
Standing Reach	Maximum standing vertical reach	*242 cm*

2.2 Speed and Acceleration

Metric	Definition	Example
5-Yard Sprint	Initial sprint time over five yards	*1.04 s*
10-Yard Split	Cumulative time from 0 to 10 yards	*1.62 s*
20-Yard Split	Cumulative time from 0 to 20 yards	*2.76 s*
40-Yard Dash	Total time from 0 to 40 yards	*4.68 s*
10-20 Yard Segment	Elapsed time between 10 and 20 yards	*1.14 s*
20-40 Yard Segment	Elapsed time between 20 and 40 yards	*1.92 s*
Flying 10-Yard Sprint	Timed segment following running buildup	*0.99 s*
Maximum Sprint Speed	Highest measured instantaneous speed	*32.1 km/h*
Acceleration	Estimated rate of velocity increase	*4.2 m/s²*
Sprint Momentum	Body mass multiplied by measured velocity	*950 kg·m/s*

2.3 Agility and Change of Direction

Metric	Definition	Example
20-Yard Shuttle (5-10-5)	Lateral acceleration, braking and redirection	*4.32 s*
Three-Cone Drill	Multidirectional movement and turning efficiency	*7.02 s*
60-Yard Shuttle	Repeated change-of-direction performance	*11.45 s*
505 Agility Test	180-degree braking and reacceleration	*2.34 s*
Reactive Agility	Response-based movement under unpredictable stimuli	*1.87 s*
Deceleration Capacity	Rate of speed reduction during controlled braking	*-5.4 m/s²*
Left/Right COD Asymmetry	Difference between directional cutting performances	*4.1%*

2.4 Explosive Power and Strength

Metric	Definition	Example
Vertical Jump	Maximum vertical jump displacement	*86 cm*
Broad Jump	Standing horizontal jump distance	*295 cm*
Countermovement Jump	Jump height using a countermovement	*42 cm*
Squat Jump	Jump height from a static squat position	*37 cm*
Reactive Strength Index	Jump height divided by ground contact time in defined protocol	*2.1*
RSI-modified	CMJ jump height divided by time to takeoff	*0.52 m/s*
Isometric Mid-Thigh Pull	Peak force in standardized isometric pull	*3,200 N*
Relative Peak Force	Peak measured force normalized by body mass	*29.6 N/kg*
Bench Press 225 lb	Repetitions at standard load	*24 reps*
Bench Press 1RM	Maximum one-repetition bench press load	*155 kg*
Trap Bar Jump Power	Measured or estimated jump power	*5,200 W*

2.5 Cardiovascular Capacity and Aerobic Recovery

Metric	Definition	Example
VO2max	Maximum oxygen uptake relative to body mass	*52.5 mL/kg/min*
Absolute VO2max	Maximum total oxygen consumption	*5.67 L/min*
Maximum Heart Rate	Highest HR recorded during standardized maximal exercise	*193 bpm*
Resting Heart Rate	HR measured under standardized resting conditions	*54 bpm*
Heart Rate Recovery - 60s	HR decrease 60 seconds after a defined exercise bout	*32 bpm*
Heart Rate Recovery - 120s	HR decrease 120 seconds after a defined exercise bout	*51 bpm*
Ventilatory Threshold 1	Exercise intensity at first ventilatory threshold	*68% VO2max*
Ventilatory Threshold 2	Exercise intensity at second ventilatory threshold	*87% VO2max*

2.6 Intermittent Endurance and Repeated Sprint Ability

Metric	Definition	Example
Yo-Yo IR1 Distance	Distance completed in Yo-Yo Intermittent Recovery Level 1	*1,640 m*
Yo-Yo IR2 Distance	Distance completed in Yo-Yo Intermittent Recovery Level 2	*800 m*
30-15 IFT Final Speed	Highest completed stage speed in 30-15 intermittent test	*19.0 km/h*
Repeated Sprint Best Time	Fastest sprint in standardized repeat protocol	*3.12 s*
Repeated Sprint Mean Time	Mean sprint time across repeated bouts	*3.29 s*
Repeated Sprint Decrement	Percentage deterioration across sprint repetitions	*5.4%*
Repeated Sprint Total Time	Sum of sprint completion times	*19.74 s*

Illustrative repeated-sprint test protocol: six 20-yard sprints with 25 seconds passive recovery. This is a proposed internal protocol; it is not an established position-specific normative standard. VO2max alone is not a measure of ability to maintain football game performance.

2.7 Football-Specific Conditioning and Performance Retention

Metric	Definition	Example
Repeated Play Performance Retention	Output maintained from early to late repetitions in a defined football drill	*93%*
Acceleration Retention	Initial acceleration performance retained after repeated efforts	*91%*
Late-Session Sprint Retention	Sprint performance retained late in a defined session	*94%*
Repeated Contact Performance	Initial output maintained through standardized repeated contact actions	*89%*
Workload Recovery Index	Team-defined composite of recovery between efforts	*84/100*

These are proposed application-derived indicators, not established universal laboratory metrics. Implement only after defining and validating consistent tests, formulas and devices.

2.8 Video-Tracking Performance Fields (Later Integration)

Metric	Definition	Example
Peak In-Game Speed	Maximum observed movement speed during play	*30.8 km/h*
In-Game Acceleration	Acceleration derived from player tracking	*3.9 m/s²*
Closing Speed	Defender velocity when approaching a target	*24.5 km/h*
Distance Traveled	Total travel distance during an identified play	*34.2 m*
Separation at Target	Distance from receiver to nearest assigned defender at target	*2.4 yd*
Time to Pressure	Elapsed time from snap to qualifying QB pressure	*2.6 s*
Route Depth	Downfield route depth referenced to LOS	*14 yd*
Time to Throw	Elapsed time from snap to pass release	*2.45 s*
Pre-Snap Motion Speed	Movement speed during pre-snap motion	*12.3 km/h*

Tracking values require a reliable source video, sufficient player visibility and calibrated coordinates. Missing observations must not be inferred as verified measurements.

3. Position Classification

Unit	Position Group	Position Codes	Example Role
Offense	Quarterback	QB	*Dual-Threat QB*
Offense	Running Back	RB, HB, FB	*Power Back*
Offense	Wide Receiver	WR, X, Z, Slot	*Vertical Threat*
Offense	Tight End	TE, Y, H-Back	*Inline Blocking TE*
Offense	Offensive Tackle	LT, RT	*Blindside Pass Protector*
Offense	Offensive Guard	LG, RG	*Pulling Guard*
Offense	Center	C	*Protection Leader*
Defense	Interior Defensive Line	NT, DT	*3-Tech Penetrator*
Defense	Edge Defender	DE, EDGE, OLB	*Speed Rusher*
Defense	Linebacker	MIKE, WILL, SAM, ILB	*Coverage Linebacker*
Defense	Cornerback	CB, Nickel, Slot CB	*Press-Man Corner*
Defense	Safety	FS, SS, Box S	*Deep Middle Safety*
Special Teams	Kicker	K, KO	*Kickoff Specialist*
Special Teams	Punter	P	*Directional Punter*
Special Teams	Long Snapper	LS	*Specialist*
Special Teams	Returner	KR, PR	*Kick Return Specialist*
Special Teams	Holder	H	*Placekick Holder*

Position codes, alignment/technique designations, tactical roles and archetypes must remain separate, configurable data objects. A player may have several positions.

4. Position-Specific Skills (Coach Rating: 0-100)

The following library provides default skill names and operational definitions. Example ratings are illustrative coach inputs, not benchmark values. Inapplicable skills may remain inactive for a team or position.

4.1 Quarterback (QB)

Skill	Operational Definition
Short Accuracy	Placement and consistency on short throws
Intermediate Accuracy	Accuracy on intermediate passing concepts
Deep Accuracy	Placement, timing and trajectory on vertical throws
Arm Strength	Ability to generate throwing velocity and distance
Release Mechanics	Efficiency and repeatability of throwing motion
Release Quickness	Speed of delivery after the decision
Footwork	Dropback mechanics, balance and throwing platform
Pocket Movement	Navigation under pressure while preserving throwing posture
Pressure Management	Decision quality and execution under pressure
Coverage Recognition	Identification of structure and post-snap rotations
Progression Processing	Speed and accuracy of progression reads
Anticipation	Delivery before receivers visibly become open
Throwing on the Move	Throwing performance outside a stable platform
Play-Action Execution	Selling the run fake and transitioning into pass concepts
Ball Security	Protection of the football in the pocket and on runs
Scramble Decision-Making	Recognition of appropriate escape or run opportunities
RPO Decision-Making	Correct run-pass conflict reads
Pre-Snap Command	Management of checks, protections and alignments

Illustrative rating: Coverage Recognition: 91/100

4.2 Running Back (RB / HB / FB)

Skill	Operational Definition
Run Vision	Identification and anticipation of developing lanes
Gap Discipline	Execution of the intended entry point
First-Step Burst	Initial acceleration after taking possession
One-Cut Ability	Decisive cuts with limited speed loss
Lateral Agility	Lateral redirection in confined space
Contact Balance	Maintaining control and progress through contact
Pad Level	Effective leverage through contact
Tackle Breaking	Defeating attempted tackles
Ball Security	Reliable ball protection
Inside Zone Execution	Reading and executing inside-zone concepts
Outside Zone Execution	Pressing, patience and cutting in outside zone
Gap Scheme Execution	Following pullers and intended gap entries
Route Running	Precision in RB receiving concepts
Receiving	Catch mechanics and ball tracking
Pass Protection Recognition	Identification of rushers and protection assignments
Pass Blocking Technique	Technique and leverage in pass protection
Open-Field Elusiveness	Defeating defenders in space

Illustrative rating: Run Vision: 90/100

4.3 Wide Receiver (WR / X / Z / Slot)

Skill	Operational Definition
Press Release	Defeating press coverage at the line
Release Variation	Adapting releases to leverage and alignment
Route Precision	Depth, angles, stems and route landmarks
Route Tempo	Manipulating speed and timing on routes
Break Efficiency	Deceleration and redirection at breakpoints
Separation Ability	Creating functional space against coverage
Leverage Recognition	Identifying and attacking defender leverage
Man Coverage Beating	Execution against individual coverage
Zone Awareness	Finding windows and adjusting to zone
Catch Technique	Receiving mechanics and reliability
Catch Radius	Securing balls outside ideal frame
Contested Catching	Securing receptions through contact
Deep Ball Tracking	Tracking and adjusting to downfield passes
Sideline Body Control	Maintaining position and control near boundaries
Yards After Catch	Creating additional gains after reception
Blocking Technique	Perimeter and stalk blocking execution
Scramble Drill Awareness	Adjusting routes when QB leaves the designed structure

Illustrative rating: Route Precision: 92/100

4.4 Tight End (TE / Y / H-Back)

Skill	Operational Definition
Inline Run Blocking	Run blocks from attached alignment
Reach Blocking	Establishing outside leverage
Down Blocking	Angle blocks toward interior defenders
Combo Blocking	Coordinating double-team actions and climbs
Arc Release	Releasing around the edge without engagement
Split Zone Blocking	Backside sift and split-flow blocks
Pass Protection	Protection against defensive rushers
Chip Technique	Disrupting rushers before releasing
Route Running	Timing and precision of TE concepts
Seam Threat	Threatening vertical seams
Zone Recognition	Identifying voids in zone defense
Contested Catching	Securing passes through contact
Catch Radius	Completing catches outside ideal frame
Yards After Catch	Creating gains after receiving
Alignment Versatility	Execution from inline, wing, slot and backfield

Illustrative rating: Inline Run Blocking: 89/100

4.5 Offensive Tackle (LT / RT)

Skill	Operational Definition
Pass Set Footwork	Depth, timing and balance on pass sets
Kick Slide	Maintaining controlled lateral depth
Hand Placement	Effective initial hand contact
Punch Timing	Engaging at the correct time and distance
Independent Hand Usage	Using each hand independently to control the rusher
Pass Protection Anchor	Resisting power and maintaining pocket depth
Speed Rush Protection	Protecting against outside speed rush
Inside Counter Recognition	Recognizing inside counter moves
Run Drive Blocking	Creating displacement at point of attack
Reach Blocking	Establishing outside positioning
Zone Blocking	Footwork and leverage in zone assignments
Pulling & Space Blocking	Movement and blocking in open space
Second-Level Blocking	Finding and engaging linebackers
Stunt Recognition	Identifying and exchanging line games
Recovery Technique	Regaining leverage after disadvantage

Illustrative rating: Pass Protection Anchor: 88/100

4.6 Offensive Guard (LG / RG)

Skill	Operational Definition
First-Step Quickness	Initial movement speed and precision
Hand Placement	Strike accuracy and hand control
Pass Protection Anchor	Resisting interior power rush
Interior Pass Set	Balanced protection against interior rush
Double-Team Execution	Coordinated displacement with a teammate
Combo-to-Linebacker Timing	Timing of climb from combination block
Pulling Technique	Footwork and angles when pulling
Trap / Kick-Out Blocking	Execution of trap and kick-out blocks
Zone Blocking	Zone steps and leverage rules
Gap Scheme Blocking	Power, counter and gap-scheme execution
Reach Blocking	Crossing defender face to gain leverage
Stunt & Twist Recognition	Identification and exchange of rush games
Second-Level Targeting	Locating intended second-level defender
Recovery Balance	Restoring leverage after displacement

Illustrative rating: Pulling Technique: 93/100

4.7 Center (C)

Skill	Operational Definition
Snap Consistency	Accuracy and repeatability of exchange
Shotgun Snap Accuracy	Accuracy of shotgun snaps
Post-Snap Transition	Immediate transition from snap to block
Protection Identification	Identification of pressure and assignments
Protection Communication	Effectiveness of line calls and checks
Interior Pass Protection	Blocking interior pass rushers
Leverage & Anchor	Resisting displacement while protecting pocket
Combination Blocking	Coordinating doubles and climb timing
Reach Blocking	Reaching shaded defenders
Second-Level Blocking	Engaging linebackers
Stunt Recognition	Recognizing and communicating line games
Hand Placement	Effective initial contact and control
Snap-to-Block Coordination	Blocking execution immediately after snapping

Illustrative rating: Snap Consistency: 96/100

4.8 EDGE / Defensive End (DE / Rush OLB)

Skill	Operational Definition
Get-Off	Snap timing and initial explosiveness
Speed Rush	Threatening the blocker outside shoulder
Speed-to-Power	Converting speed into forceful contact
Bull Rush	Collapsing protection through direct power
Rip Move	Disengaging with upward ripping motion
Swim Move	Over-the-top arm movement to defeat blocks
Club Move	Displacing blocker hands or upper body
Cross-Chop	Removing hands using coordinated chopping action
Long-Arm Technique	Extended-arm leverage and control
Inside Counter	Redirecting inside following outside threat
Bend & Cornering	Maintaining efficient angles around edge
Edge Setting	Maintaining outside contain against run
Block Shedding	Separating from an engaged blocker
Run Fit Discipline	Assigned gap and force responsibilities
Pursuit Angles	Efficient paths to ball carrier
Tackling	Finishing tackles across situations
Pass-Rush Plan	Sequencing and adapting rush moves
Zone Coverage	Executing zone drops when assigned

Illustrative rating: Rip Move: 88/100

4.9 Interior Defensive Line (DT / NT)

Skill	Operational Definition
First-Step Quickness	Initial post-snap explosiveness
Pad Level	Establishing favorable leverage
Hand Violence	Power and accuracy of strikes
Block Recognition	Identifying offensive blocking concepts
Double-Team Resistance	Holding position against coordinated blockers
Gap Integrity	Maintaining assigned gaps
Two-Gap Control	Controlling blocker and reacting to either assigned gap
One-Gap Penetration	Penetrating the designated gap
Block Shedding	Separating from blockers
Bull Rush	Penetrating through power
Push-Pull Technique	Manipulating opponent balance
Interior Pass-Rush Moves	Executing interior pressure techniques
Stunt Execution	Timing and coordination of line games
Run Disruption	Disrupting intended run blocking
Tackling in Traffic	Finishing tackles in congested spaces
Pursuit Effort	Continuing pursuit beyond initial gap

Illustrative rating: One-Gap Penetration: 92/100

4.10 Linebacker (MIKE / WILL / SAM / ILB)

Skill	Operational Definition
Run Recognition	Identifying developing run concepts
Key Reading	Reading assigned guards, backs and keys
Block Recognition	Recognizing blocking structures
Gap Fit Discipline	Executing assigned run fits
Downhill Trigger	Decisive reaction toward LOS
Block Destruction	Defeating blockers while keeping fit
Stack & Shed	Engaging, controlling and shedding blockers
Pursuit Angles	Efficient approach to ball carrier
Open-Field Tackling	Finishing tackles in space
Zone Coverage	Executing defined zone responsibilities
Hook/Curl Coverage	Defending intermediate inside windows
Man Coverage	Covering backs and tight ends
Route Recognition	Recognizing receiving concepts
Blitz Timing	Timing pressure relative to snap
A-Gap Blitz Technique	Attacking interior pressure lanes
Coverage Communication	Coordinating defensive checks
Pre-Snap Diagnosis	Identifying formations and threats

Illustrative rating: Run Recognition: 93/100

4.11 Cornerback (CB / Nickel / Slot CB)

Skill	Operational Definition
Press Coverage	Disrupting receiver release and timing
Press Footwork	Balance and leverage in press
Mirror Technique	Matching receiver initial movement
Backpedal Technique	Controlled backward movement
Hip Transition	Changing direction with efficient hip rotation
Man Coverage	Tracking assigned receiver
Off-Man Coverage	Leverage and response from off alignment
Zone Coverage	Zone rules and distribution
Route Recognition	Anticipating receiver routes
Leverage Discipline	Preserving assigned leverage
Closing Burst	Accelerating toward target
Break on Ball	Timing break on thrown ball
Ball Tracking	Locating and adjusting to pass
Ball Skills	Deflecting, contesting and intercepting
Recovery Speed	Regaining position after losing leverage
Open-Field Tackling	Tackling in space
Run Support	Perimeter run-defense responsibilities
Block Defeat	Disengaging from WR/TE blocks
Slot Route Recognition	Recognizing interior receiver routes
Match Coverage Execution	Executing pattern-match rules

Illustrative rating: Press Coverage: 92/100

4.12 Safety (FS / SS / Box S)

Skill	Operational Definition
Deep Coverage Range	Coverage of large deep zones
Angle Discipline	Efficient coverage and pursuit angles
Route Combination Recognition	Reading coordinated route concepts
Coverage Rotation	Executing secondary rotations
Zone Coverage	Landmarks and zone assignments
Man Coverage	Covering assigned eligible receivers
Match Coverage Execution	Executing pattern-match rules
Ball Tracking	Tracking downfield throws
Ball Skills	Contesting, deflecting and intercepting
Closing Burst	Acceleration toward developing play
Open-Field Tackling	Finishing tackles in space
Run Fit Discipline	Assigned defensive run gaps
Block Defeat	Disengaging from perimeter blockers
Box Play	Responsibilities near LOS
Blitz Timing	Correct entry timing on pressure
Communication	Organizing coverage and adjustments
Pre-Snap Recognition	Identifying formations, motion and threats

Illustrative rating: Deep Coverage Range: 94/100

4.13 Kicker (K / KO)

Skill	Operational Definition
Field Goal Accuracy	Consistency of field goal placement
Kick Distance	Effective field goal range
Kick Trajectory	Control of kick flight path
Kickoff Distance	Distance produced on kickoffs
Kickoff Placement	Accuracy toward assigned kickoff area
Hang Time Control	Controlling kick flight duration
Operation Timing	Executing within snap-to-kick window
Pressure Consistency	Reliable performance in pressure situations
Environmental Adaptation	Adjusting to weather and surface

Illustrative rating: Field Goal Accuracy: 89/100

4.14 Punter (P)

Skill	Operational Definition
Punt Distance	Controlled punt distance
Hang Time	Duration of ball flight
Directional Punting	Targeting assigned areas
Coffin Corner Placement	Placement near the designated boundary
Inside-20 Placement	Controlling ball near opponent goal line
Operation Time	Catch-to-kick execution speed
Pressure Handling	Execution against rushing opponents
Punt Consistency	Repeatability of contact and placement

Illustrative rating: Directional Punting: 91/100

4.15 Long Snapper (LS)

Skill	Operational Definition
Snap Accuracy	Placement consistency
Snap Velocity	Speed of ball delivery
Snap Consistency	Repeatability across attempts
Blocking Transition	Entering protection immediately after snap
Protection Technique	Blocking against rush
Pressure Execution	Maintaining technique under pressure

Illustrative rating: Snap Accuracy: 96/100

4.16 Return Specialist (KR / PR)

Skill	Operational Definition
Ball Tracking	Locating descending kicks
Catch Reliability	Securing kicks consistently
Return Vision	Identifying developing return lanes
Return Decision-Making	Choosing return, fair catch or let-ball-go
First-Step Burst	Initial acceleration after securing kick
Open-Field Elusiveness	Evading tacklers in space
Ball Security	Protecting ball through contact
Coverage Recognition	Identifying coverage lanes and leverage

Illustrative rating: Return Vision: 91/100

4.17 Holder (H)

Skill	Operational Definition
Snap Handling	Receiving and securing placekick snaps
Ball Placement	Accurate placement for kicker
Laces Management	Orienting ball for kick contact
Operation Timing	Consistent completion of hold
Bad-Snap Recovery	Recovering inaccurate snaps
Pressure Execution	Executing under opposing rush

Illustrative rating: Ball Placement: 95/100

5. Universal Skills

Skill	Operational Definition	Example
Football IQ	Understanding game situations, concepts and responsibilities	*88/100*
Assignment Discipline	Consistent execution of assigned duties	*92/100*
Play Recognition	Identifying developing opponent concepts	*84/100*
Reaction Speed	Response speed to relevant cues	*86/100*
Spatial Awareness	Awareness of players and space	*82/100*
Decision-Making	Quality of decisions under game conditions	*90/100*
Communication	Effectiveness of on-field communication	*87/100*
Adaptability	Adjusting to scheme and opponent changes	*80/100*
Technique Consistency	Repeatability of fundamentals	*89/100*
Motor / Effort	Sustained effort throughout plays	*94/100*
Competitive Toughness	Maintaining execution under physical adversity	*85/100*
Versatility	Execution across different roles	*76/100*

6. Skill Rating Standard

Score	Classification	Evaluation Standard
0-19	Very Limited	Skill is not demonstrated reliably
20-39	Developing	Basic execution with significant inconsistency
40-59	Functional	Adequate execution in routine situations
60-74	Above Average	Reliable execution against competitive opposition
75-89	Advanced	High-quality execution in demanding situations
90-100	Elite	Exceptional, repeatable execution relative to reference level

Unassessed means Not Evaluated, never zero. Competitive reference level must be recorded with each assessment. Rating band names are application-defined, not official NFL or PFF scales.

6.1 Skill Evaluation Record

Field	Definition	Example
Player ID	Unique player identifier	*PLY-001*
Position	Evaluated position	*DE*
Skill	Selected skill definition	*Rip Move*
Rating	Coach-assigned rating	*88/100*
Evaluation Reference	Competitive comparison level	*European Professional*
Evaluator	Assessment owner	*Defensive Line Coach*
Evaluation Date	Assessment date	*2026-11-04*
Evidence Source	Supporting observation	*Game Film*
Evaluation Status	Verification state	*Verified*

7. Data and Configuration Requirements

Component	Requirement	Example
Custom Player Attributes	Team-specific data fields and units	*Standing Reach*
Position Definitions	Custom base positions, roles and archetypes	*Hybrid LB/S*
Multiple Positions	Player-position assignments with separate ratings	*DE + OLB*
Skill Library	Add, rename, deactivate and version skill definitions	*Ghost Move*
Position Skill Templates	Activate only applicable skills per role	*DE: Rip Move*
Skill Rating History	Preserve assessor, time and score changes	*78 to 85*
Measurement History	Preserve dated tests with protocol and units	*10-yard: 1.72 to 1.68 s*
Optional Role Weights	Team-defined importance of skills	*Speed Rush: 25%*
Evidence Linking	Link evaluations to approved evidence	*Game 04, Play 128*
Measurement Provenance	Store testing method, instrument and verification	*Electronic Timing Gates*
Not Evaluated State	Distinguish absence of assessment from zero rating	*Not Evaluated*

7.1 Core Data Objects

Object	Scope
Player	Identity and basic measurements
PlayerPosition	Many-to-many positions and role assignments
PositionSkillTemplate	Skill definitions applicable to a position or archetype
MeasurementDefinition	Standard metric, unit, formula and protocol
MeasurementRecord	Value, timestamp, method, source and status
SkillDefinition	Stable identifier, name, description, version
PlayerSkillRating	Value, reference level, assessor, timestamp and evidence
TeamSkillConfiguration	Team overrides and selected skill templates

7.2 Initial Data Capture

Stage	Required Scope
Initial release	Player identity, positions, archetypes, basic body measurements and coach-assessed skills
Initial athletic testing	10/20/40-yard timing, 5-10-5 shuttle, vertical and broad jump, and standardized conditioning protocols where available
Later integration	Video-derived metrics, automated player tracking, matchup analytics and AI personnel recommendations
